

Cylinders Series 61 - Aluminium profile

Single, double-acting, magnetic, cushioned
 ø 32, 40, 50, 63, 80, 100, 125 (DIN/ISO 6431)

- » DIN/ISO 6431/VDMA 24562
- » Rolled stainless steel rod
- » Clean design
- » Adjustable pneumatic cushioning

The Series 61 cylinders have been designed to comply with the dimensions laid down in the DIN/ISO 6431 standards. A permanent magnet is mounted on the piston in these cylinders which enables information to be received regarding the pistons position, by means of proximity switches mounted in grooves along the cylinder profile. These grooves can be covered with a slot cover profile Mod.S-CST-500.

This cylinder series is equipped with adjustable end-stroke cushioning. Moreover, these cylinders are equipped with a mechanical cushioning in order to reduce the impact of the piston as it reaches the end of the stroke.
