Superior Rubber Alloy Air Hose & Assemblies

Technical Data

The new superior rubber alloy hose comes from years of research and development to find the optimum compound used to manufacture a hose with the total feel and capabilities of a rubber hose but without the associated negative aspects.

- Braided reinforcement: high tensile polyester braid
- Highly flexible: excellent bend radius with anti-kink capabilities
- Durable: excellent abrasion resistance, plus oil and fuel resistant outer cover
- Silicone free
- · Safe: highly visible green stripe for safety against becoming a trip hazard
- Ideal for outside: excellent ozone resistance, making it a number one choice for outdoor applications
- Smooth bore: consistent internal and external dimensions, with a smooth bore for optimum flow
- More Resistant: excellent resistance to oils and fuels
- Safety Factor: 3:1

Hose can be ordered in various lengths.

Maximum Working Pressure:
